The new 2008 **PLAYER DIARY** and the all new **ACTIONTRACKER** will be launched.

ACTIONTRACKER is our new sport statistic and action analysis system. This new service will allow club coaches to see when and how a game was won or lost. Using pitch side stat collection it will allow clubs to monitor individual player's progress over a season, and help gauge and direct a club's development over the years. It will provide real time data to help switch games, as well as give insight and easy to understand dashboard measures of key actions, player by player, game by game, over the seasons.

ACTIONTRACKER : CHANGE THE GAME
